Defender High Output Heater Matrix

DA4744

AlliSport uprated high output heater matrix for the late Defender. This fits the late model, right hand drive (including some LHD NAS Spec) Defender, but please check your application before ordering!

Larger matrix has twice the capacity of standard, increases heat output and improves windscreen demisting times.

The cores are the highest quality vacuum brazed designs with louvred fins and TIG welded by hand. Only requires some small mods to the heater box to install.

Not suitable for Puma 2.4 and 2.2 vehicles.
